

SCRANA

DESIGNED BY **DOODESIGN** FEAT **NICCOLO' MORGAN GANDOLFI**

USE

indoor | outdoor

MATERIAL

rebar \varnothing 12 mm

FINISH

hot dip galvanized, rust and powder coated

PROCESSING

welded iron and shaped and removable cushion

DIMENSION

L 45 cm x 45 cm x H 48 cm

SCRANA

DESIGNED BY **DOODESIGN** FEAT **NICCOLO' MORGAN GANDOLFI**

SCRANA is distinguished by a structure with a simple design, made with poor materials such as the rebar used in construction. The design is inspired by the artist's work Franz West from Vienna, who in the 1980s began to produce furniture with shapes distinctly sculptural. Opposite to the raw material of the structure, the cushions and the top are made with refined materials. The cushions are packed with fabrics suitable for outdoor use and the top is made with now unobtainable fossil stones.
